What are the best aspects of Joshua Tomlin's teaching?

Comments
The weekly seminars are incredibly thorough and helpful, and Josh is always ready to answer students questions. He explains concepts very well.
Josh is very approachable and responds very quickly via email. He explains difficult concepts quite well, and isn't afraid to help guide students who are stuck even on assignment questions in a way that helps them learn. He also makes the course more interesting than the lecture videos do.

Joshua Tomlin could improve student learning by ...

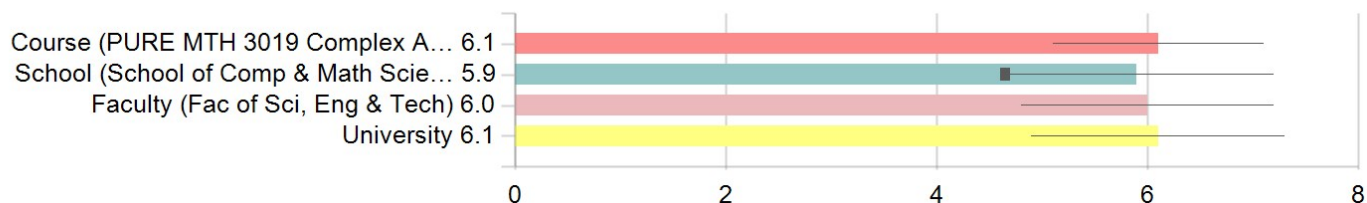

Comments
Recording the videos himself and extending the workshop/tutorial sessions to 2 hours weekly.

2025 S2 Comparison Statistics

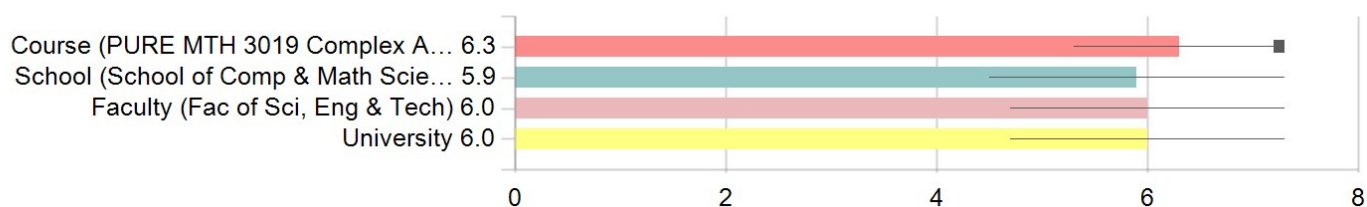

Mean (average valid student responses between 1 and 7) and Standard Deviation (Standard deviation of valid student responses) are used for comparison statistics between Course, School, Faculty and University.

Course Report for PURE MTH 3019 Complex Analysis III

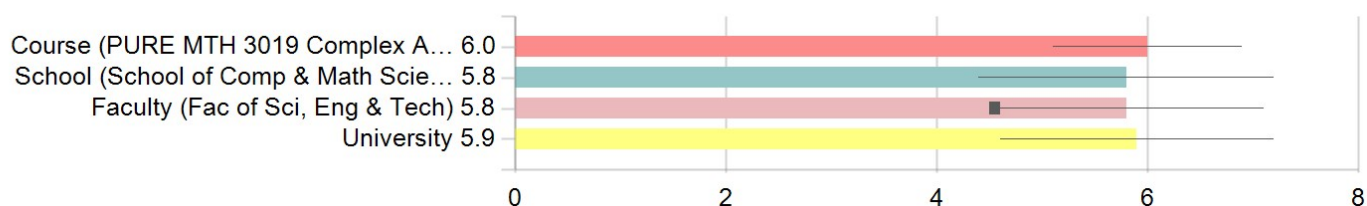

1. This course helps me to build my understanding of key concepts.

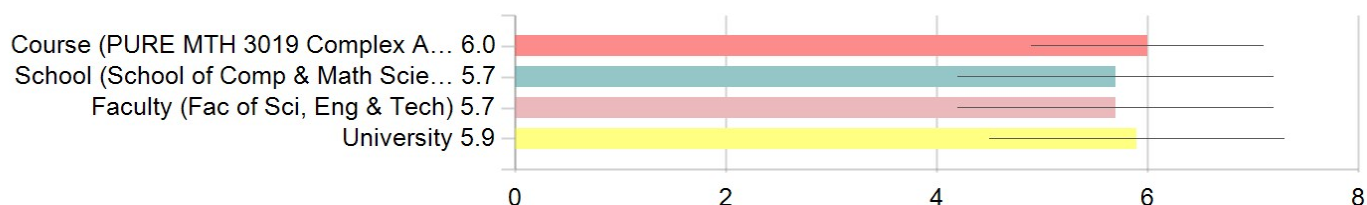

2. Overall, this course is intellectually stimulating.

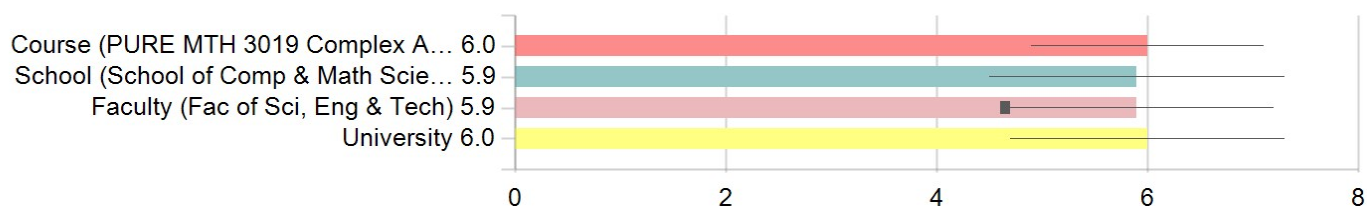

3. This course includes digital activities and resources that help me learn.

4. In this course I receive useful and timely feedback on my work.

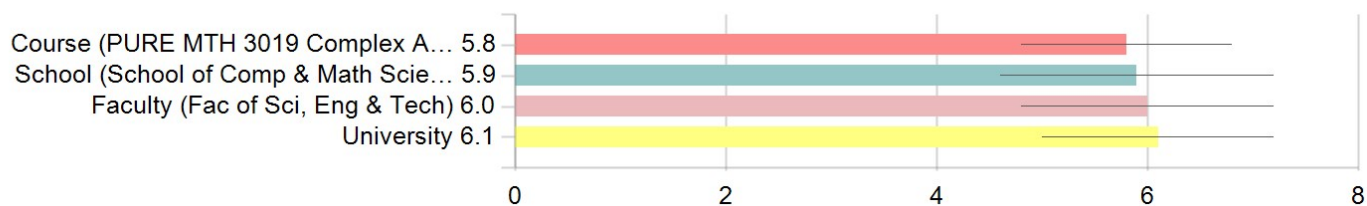

5. The assessment tasks in this course help me learn.

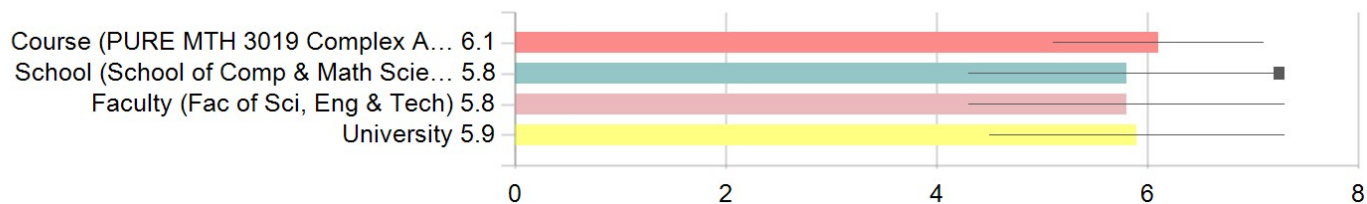

Course Report for PURE MTH 3019 Complex Analysis III (continued)

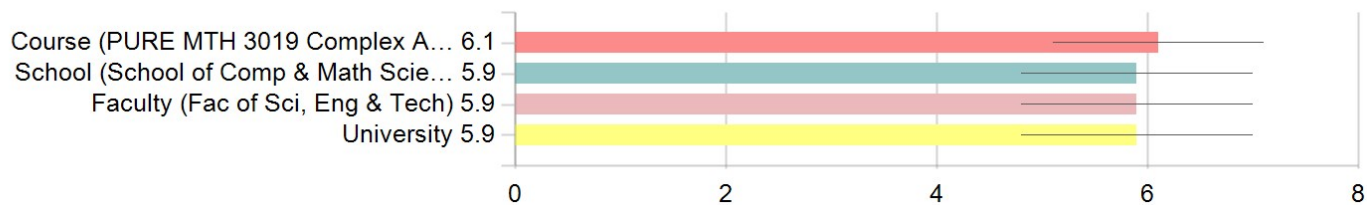

6. In this course diverse perspectives are valued and difference is accommodated.

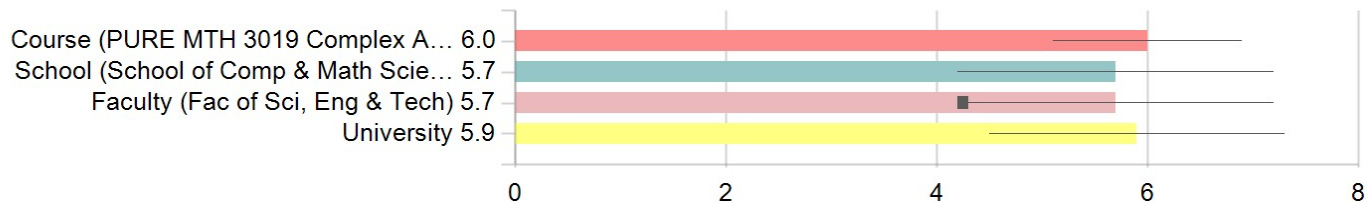

7. This course is well organised.

8. How much effort have you put into this course?

9. Overall, I am satisfied with the quality of this course.

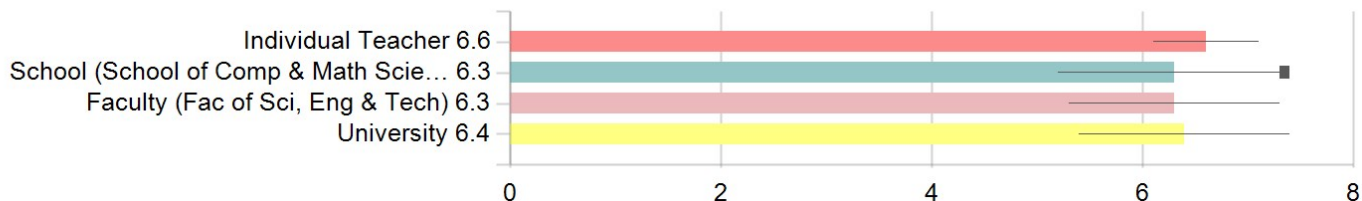

2025 S2 Comparison Statistics

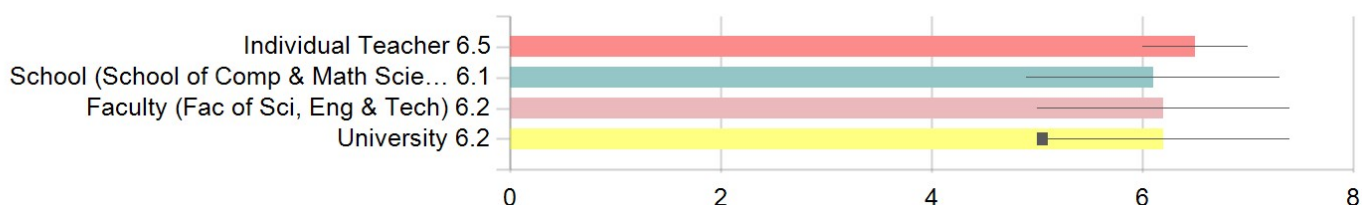

Mean (average valid student responses between 1 and 7) and Standard Deviation (Standard deviation of valid student responses) are used for comparison statistics between Individual Teacher, School, Faculty and University.

Joshua Tomlin...
